

gravelortian part 21

by Chad Smith

My favorite word is everything
Often on a good day it feels like electricity
Thumping and pulsing through us
Happy is a look we are trying to wear better
Everything is exciting when it takes it all
Reflections of the sun warming us with energy

Feet tapping to the beat
Under the covers of the earth
Carefree safe and sweet on our own little world
Kiss your big belly and you kiss mine
Everything will work out fine
Rivers will rise with or without us
