//i look beneath your skin:

by Eryk Wenziak

//i look beneath your skin: & imagine a stone façade on the petal of a lily—
   a reminder = you;

         <u>solve for:</u>
                  $x \geq$ *ponds rise beyond where you & i have* *stood, our feet entrenched in the mortar of*   *two* *celestial figments—*

   one circumstance:
