

# In Brief

*by Gary Hardaway*

## **Texas**

A preponderance of assholes  
in oversized pickup trucks.

## **Cain and Abel Haiku**

The first murder was,  
as murders still tend to be,  
a family affair.

## **Separating Art from Personality**

I can admire Falling Water  
and find Mr. Wright a complete shit.

## **Tectonic**

Geology doesn't share its plans  
except to rumble or shudder a little  
before an eruption of forces  
fragile men and women can't resist  
and often don't survive.
