Three Small Ekphrastic Objects

by Gary Hardaway

On the Iliad

Agamemnon and Menelaus were complete creeps. Achilles was

a pompous piece of shit. Odysseus alone among the Achaeans

had a lick of sense and a plan to get back to Penelope and Ithaca.

Homer shows the depravity of the Mycenaeans, the honor

of the Trojans. Subversive art, that Iliad.

Musical Imagination

I think that Katy Perry cannot see the notes she sings nor those of the band but Bach and Beethoven could

and hear the instrument for each without the earphones and studios and record company executives.

Mahler, Symphony Number Two

Snippets of brilliant
melody and orchestration
assembled incoherently.
A massive collection of musical insight
with no discernible whole.
A curious and sadly unrelated
set of great moments.
