

It's the New Age of Bullshit

by Jerry Ratch

They're young and haughty.
27's still a long ways off.
They read about the famous,
not the dead.

Dusty dragonflies will not
land upon them,
and they are really only in love
with the dishwasher.
Now *there's* a problem!

Poetry is dead, they say,
but God's okay.
So is QVC.

I didn't want to
shame the sky,
but it's the Age of Bullfrog.

It's the Age of Bull Roar.
The Age of Absolute Bullshit.

In fact,
it's the New Age of Bullshit.
