

# Buzzard

*by* A. Pseudonym

I see the outstretched buzzard  
but not what the buzzard sees  
committed to his updrafts  
and circling for carrion

I mark his outline shape  
but not his dark bird eye  
his soaring soul  
preparing to dive

I do not know the buzzard  
only what I can see  
and you have no idea  
what lies, in my eyes
