

# Anthropometamorphism

*by* Bill Yarrow

I have known a head become  
a callus, matriculate, stop  
shaving, move to Vegas

I have known a mouth become  
a gland, install a flange,  
sail to the Western Isles

I have known a bicep become  
a tear duct, argue its authority,  
sabotage the badinage

I have known a skin tag become  
a pustule, take up the flugelhorn,  
extrapolate the Florentines

I have known a heart become  
a kidney, vibrate, grow  
wings, fly off into the piss
