

# gravelortian part 21

*by* Chad Smith

My favorite word is everything  
Often on a good day it feels like electricity  
Thumping and pulsing through us  
Happy is a look we are trying to wear better  
Everything is exciting when it takes it all  
Reflections of the sun warming us with energy

Feet tapping to the beat  
Under the covers of the earth  
Carefree safe and sweet on our own little world  
Kiss your big belly and you kiss mine  
Everything will work out fine  
Rivers will rise with or without us
