

# birdbrain

*by* Daniel Passamaneck

I believed I was a bird  
and this ~ was flying

Later on they shared the truth  
I am an emu  
ostrich kiwi  
cassowary turkey dodo  
feathered flightless freak of nature  
I have never left the ground  
and if my shadow seemed too small  
it's not because I'm so far up  
but that I'm barely even here
