

Genocide City Zone

by Darius McCaskey

Welcome to the genocide city zone

I'm sure you'll enjoy your stay
We've been killing folks here
All the live-long day
If you want to join us
You'll have to pay the price
Your soul's the cost, so ante up
C'mon and shoot the dice

Welcome to the genocide city zone

Everyone's dying to get in
Ignore your guilty conscience
Though Jesus says it's sin
If you do not join us
You'll have to pay the price
Sacrifice your life tonight
To our deadly new device

Welcome to the genocide city zone

Check out time is soon
We only stop once a day
To eat our lunch at noon
If you want to join them
We're happy to grant your request
Just remember this one thing:
We kill 'em with the best
