

# SEA BIRDS

*by* Estelle Bruno

They frequent the open ocean  
but not on this day  
this day is dark and dank after a  
heavy rainstorm  
I wait for them to come back to  
the water  
they don't come  
I wonder where they hide during  
the storm  
the gulls don't fit in tree holes  
so where, where are they?
