

# Days of Future, Past

*by Gary Hardaway*

## **1 December 22**

So, the Maya got it wrong.  
No end.  
Much like Y2K,  
same shit, different day.

## **2 Revenge Tragedy**

The severed soldier's head  
was poorly framed  
in low-res viral video.  
Next day, Afghans  
all were Taliban.

## **3 Scene from Civil War- The Sequel**

Though bleached white as snow,  
Eric Cantor's teeth broke  
much as any others would  
with well placed application  
of a ball peen hammer blow.  
The reds scored a martyr,  
the blues their first strategic  
vengeance. Opinion on  
the YouTube video  
trended 50/50, pro and con,  
reds and blues  
fairly balanced  
both sides of the poll.
