

# Spare Parts

*by* G.E. Simons

In the long Leyland arc of Triumphant Lagonda  
Where plasticity engine parts nut bolts economy  
Wing mirrored parcel shelves sump out rain oily  
Climbing up sandwiches, robotic machinery

Screwdriver metallic on tongue's spanner bracket  
Bulb units sent dashing to observe sub committees  
Then wing mirrors pivot chromed up on delivery  
Dims redish those tail lights of auto mobility
