

Oneiric

by Hazem Tagiuri

- Of or relating to dreams

Of reveries, finding rich feasts
in the smallest of morsels:
the way the sun highlights
a subtle sheen on ivy,
or scraps of bunting laid to waste
over the gnarled boughs of bare trees.

Of gleaning tales from the niches:
how the cheer of a fête
crept from overcast skies,
or simply picturing
the frames flickering
through another passenger's mind.
