Art Takes Over

by Jerry Ratch

She must fuck like a marmot That's all I can say, if he already turned his back On the Statue of Puberty To get near to her What do you think it means?

He joins the hierarchy Where they sit On the steps of life And she passes the healing comb Through the hair of his soul During the night As she retouches her youth

And art takes over Where the electric misses the mark Dark spots like this Don't always fall off the sun Anymore And life and death don't mean The same to everyone
