*If I had one of those, she said, I'd never get anything done.*

So naughty.

Now my bones get goose-bumps too.

We were playing in my rock group Spotty Behavior,  
and she was lead singer in The Young Vaginas,  
fronting for a band called The Cherry Pickers.

We were fronting for Knee Jerk Reaction.  
They were one-of-a-kind  
and angry at everything.

Colleen was her name and she was  
four fingers wide. Once she took my virginity  
what else was there?

Now all I have is the  
memory of past wives  
I never married.
