

Bearded Lamb

by Jerry Ratch

I was bleeding from the soul
It took its toll
I fell all the way down in a hole
I saw some burning coal

I didn't know where the hell I was
Or what went wrong
As I sang some unholy song
Where I did not belong

There was a frozen carcass
In the basement of mankind
Where everything and everyone
Was accidentally left behind

I was just a bearded lamb
That's all I was down under
That's what I am
Just a one word wonder

A bearded lamb
A bearded lamb
That's all I was
That's all I am
