

I Ain't Your Kissin' Cousin - song

by Jerry Ratch

I ain't your kissing cousin
That's pretty plain to see
Baby, keep your pretty lips
Far away from me

I ain't your kissing cousin
That's pretty plain to see
You're really very pretty
Come kiss me and we'll see

We don't live in a barnyard
Or in the Ozark hills
I need to set you straight
Quit giving me the chills

I'm not your pig in a wallow
Sucking down some swill
Don't start kissing everything
But kiss me if you will

Cause I ain't your kissing cousin
That's pretty plain to see
Baby, keep your pretty lips
Far away from me

O lord my pretty mama
It's best if you leave now
We need to leave the barnyard
I'm like a kissing cow

Keep them lips away from me
And I do mean far
So, so far away from me
Till I get to the bar

I'm climbing in my car now
I'm ready to say bye
Forget this barnyard wallow
I'm kissing in the sky

Cause I ain't your kissing cousin
That's pretty plain to see
Baby, keep your pretty lips
Far away from me

Though I ain't your kissing cousin
That's pretty plain to see
You're really very pretty
Come kiss away with me
