

# It's the New Age of Bullshit

*by* Jerry Ratch

They're young and haughty.  
27's still a long ways off.  
They read about the famous,  
not the dead.

Dusty dragonflies will not  
land upon them,  
and they are really only in love  
with the dishwasher.  
Now *there's* a problem!

Poetry is dead, they say,  
but God's okay.  
So is QVC.

I didn't want to  
shame the sky,  
but it's the Age of Bullfrog.

It's the Age of Bull Roar.  
The Age of Absolute Bullshit.

In fact,  
it's the New Age of Bullshit.
