

No Good Hubcaps - song

by Jerry Ratch

I got no good hubcaps
My van is up on bricks
It's held together with duct tape
And a couple of crummy sticks

I caught the guy who did this
And tied him to a tree
I kicked him in the windpipe
And kicked him in the knee

I'm a man without a hubcap
A man without a truck
I ran it in a ditch
I ran right out of luck

You can take me to my graveside
And try to throw me in
But I'll climb right up the other
And run away and hide

Cause I'm just not ready
To lay me down and die
So take this suit right off me
And untie my tie

Put me in my van now
Right in the driver's seat
Tie me in with rope and dope
And feed me something sweet

I'm a man without a hubcap

A man without a truck
I ran it in a ditch
I ran right out of luck

You can take me to my graveside
And try to throw me in
But I'll climb right up the other side
And run away and hide
