

The I-Penis

by Jerry Ratch

You'll end bar-hopping once and for all
You'll never leave the house
Steve took this one with him to the grave
because he knew nerds everywhere would stop speaking to him

Yes, that's right, it's the magnificent new I-Penis
with built-in 10 mega-ram technology
that just won't let you down in the middle of the night
even during blackouts

Get it now at your mega I-Sore store
Get one for your sister — why not buy 2?
Hurry, while supplies last
You don't want to miss out on this discovery of a lifetime

I-Penis
You'll love it to death!
(Warning: may cause some damage
to normal human relationships — but who cares!)
