

# This Is Really Living, She Said

*by* Jerry Ratch

She bought herself her own apartment  
That was when she told me

I have a hard time getting out  
Unless it's really important like work

I told myself wake up early  
Get some coffee, but I oversleep

I had a massage therapist come to my house  
And I thought: This is living

I'm getting a kitty after my vacation  
I can't wait
