

# Down

*by* Johnny Dantonio

Are we so happy  
That we're now terrified?  
Shushing your worries  
Giggle at the change in time  
    Don't let it fool you  
Don't let it bring you  
Down  
Down to the ground  
Our mouths' foolish sounds  
    Look at our love below  
Look at it from afar  
Locked at the highest rung  
Unable to budge at all  
    Wings won't help us  
Wings just take us  
Down  
Down to the ground  
But gravity's sound...  
    Now back parallel  
Now back side by side  
Well, here it is like we've always known  
There!  
    Don't, don't, don't  
Don't you dare speak  
Don't you date look  
Down  
Who cares what you said  
Eyes straight ahead
