

# I Hate You

*by* Laura McCollough Moss

God I hate you  
go ahead  
stick one more morsel  
into that piehole  
God you're ugly  
sitting there inert  
you haven't done  
one fucking thing all day  
God you're stupid  
thinking you could beat it  
You're looking pretty beat down  
to me.  
Maybe there's a dumber  
uglier  
fatter  
more wretched bitch in this world than you  
but I don't know where.  
You make me sick you really do.  
Somebody ought to put you out of your misery.  
Loser.
