

Edward Ogle the Seventh

by Peter Erich

Airwave candy
lyrical brandy
melting brass band singer.

Arrowhead lemonade
shark tooth hand grenade
give'm the disco finger.

Adrift in a current
drinking Grunge Rock detergent
voice box full of fodder.

Cold weather motorcade
gingerbread switch blade
the fear inside me gets bigger.

Quarter pounder benchpress
Henry Winkler shirtless
the hook is the anchor.

Cyanide time capsule
with a side of pineapple
doing the CBGB's shiver.
