

Honey Gold

by Rene Foran

honey gold
warming my cheek
your light is gonna
last me
through the week

golden delicious
sweet autumn kisses
taste so nice
mixin' the sugar
with the spice

sunshine
workin' those rays
you keep me smilin'
when the sky
turns grey

and when the night falls
you'll hear your name called
see you soon
i'll brag about you
to the moon
