

# Warning to Frau. Merkel

*by* Tabatha Stirling

Oh! Fraulein Merkel,  
What shall you do?  
You wanted a multicultural land  
To erase away taboo.

It hasn't worked, it will not work  
The Volk are very cross  
Women are fearful in the streets  
The politicians don't give a toss

Misogyny and sex assault  
Thievery and rape as well  
Poor old Deutschland is looking bad  
How can we resolve this ill?

Muslim does not mean fanatic  
We all know that and agree  
But we need to know that we're safe to walk  
Down streets that once were free.

You've opened us up like a can of Kraut  
To this and that and more  
Its only matter of time, Frau M  
Before violent crime will soar.

You've already censored the TV stations,  
Now Radio is close behind  
Police refuse to write reports  
So afraid of being seen as unkind.

We have fought too hard for centuries  
to win our rights for freedom.

And not to cover our hair or legs  
or give up the vote for women.

Close the borders? Weed out the bad?  
Rip up their papers? Send them all back?  
All of these or none of these but something must be done  
Or every woman in the land will own a Taser gun.
